RE: Werner Co. D-Bolt Anchors Fastened to Concrete with DEWALT Screw-Bolt+™ Screw Anchors

Dear Valued Customer,

The use of DEWALT Screw-Bolt+ 5/8" screw anchors have been approved to fasten the Werner Co. D-Bolt Anchors when installed with a minimum of 5" of embedment into concrete with a minimum of 2,500 psi. Screw-Bolt+ screw anchors have been evaluated by International Code Council, Evaluation Service (ICC-ES), ESR-3889 for concrete.

When installed in accordance with the Screw-Bolt+ installation instructions, the D-Bolt Anchor is capable of supporting at least 5,000 pounds (22.2 kN), compliant to the requirements of OSHA 29 CFR 1910 and 1926. Please refer to ESR-3889 for additional installation requirements and details.

Our willingness to work towards continuous improvement demonstrates our commitment to our customers and high product quality, while addressing ever evolving industry standards and regulatory requirements.

Thank you for your continued support and use of Werner Co. fall protection products.

Sincerely,

Michael N. Cameron, QSSP
